We have audited the accompanying statements of financial condition of Regional Brokers, Inc. as of December 31, 2019 and 2018, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes (collectively referred to as the financial statements). Basis for Opinion

These financial statements are the responsibility of Regional Brokers, Inc.'s management. Our responsibility is to express an opinion on Regional Brokers, Inc.'s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Regional Brokers, Inc. in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to fraud or error. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to fraud or error, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

The Schedule of General and Administrative Expenses and Computation of Net Capital Under Rule 15c3-1 of the Securities and Exchange Commission have been subjected to audit procedures performed in conjunction with the audit of Regional Brokers, Inc.'s financial statements. The Company's customers are located mostly in the Northeast Region of the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Coch

Cash consisted of funds held in checking and money market accounts.

Commissions Receivable

The Company charges income for doubtful accounts when they are considered uncollectible based on historical experience and current conditions. Management considers the receivables to be fully collectible at the balance sheet dates, and no provision for uncollectible accounts has been made.

Marketable Securities

The Company's marketable securities investments that are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Trading securities are recorded at fair value on the statement of financial position in assets, with the change in fair value during the period included in earnings.

Furniture and Equipment

Furniture and equipment are stated at cost. Maintenance, repairs and minor renewals are charged to operations as incurred. Depreciation is provided over the estimated useful lives of the assets on an accelerated method. The estimated useful lives of the various classes of assets are as follows:

Classifications	<u>Years</u>
Furniture and Fixtures	5-7
Computer Equipment	3-5

1. BUSINESS ACTIVITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Operating Lease

The Company was required to measure and recognize leases that existed at January 1, 2019. The adoption of ASC 842 resulted in the recognition of operating right-of-use assets and lease liabilities of \$84,383 and \$84,383, respectively.

Right-of-use assets represent the Company's right to use leased assets over the term of the lease. Lease liabilities represent the Company's contractual obligation to make lease payments over the lease term.

In February 2016, the Financial Accounting Standards Board issued Accounting Standards Update 2016-02, Leases, which creates a new Topic ASC 842, Leases. On January 1, 2019, the Company adopted this update using the modified retrospective approach. The objective of this update is to increase transparency and comparability between companies that enter into lease agreements. For lessees, the key difference of the new standard from the previous guidance is the recognition of a right-of-use asset and lease liability on the statement of financial condition. Results for reporting periods beginning on January 1, 2019, are presented under this update, while prior period amounts have not been adjusted and continue to be reported in accordance with the Company's historical accounting methodology pursuant to previous guidance.

Investment in Nonmarketable Security

Investment in companies in which the Company has less than 20% interest are carried at cost. Dividends received from those companies are included in other income. Dividends received in excess of the Company's proportionate share of accumulated earnings are applied as a reduction of the cost of the investment.

Brokerage Commissions

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09, Revenue from Contracts with Customers (ASC 606), which replaces numerous requirements in U.S. GAAP, including industry-specific requirements, and provides companies with a single revenue recognition model for recognizing revenue from contracts with customers. On January 1, 2018, the Company adopted ASC 606 using the modified retrospective method for all contracts. Results for reporting periods beginning on the date of adoption are presented under ASC 606, while prior period amounts have not been adjusted and continue to be reported in accordance with the Company's historical accounting methodology pursuant to ASC 605, Revenue Recognition. Upon adoption, a cumulative effect adjustment was not required as the Company's contracts are recognized based on trade date commissions and were not impacted by the new guidance.

Advertising Costs

The Company expenses advertising costs as incurred. Advertising costs for the years ended December 31, 2019 and 2018, were \$2,100 and \$1,250, respectively.

1. BUSINESS ACTIVITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The stockholders have elected for the Company to be an S corporation for federal and state income tax purposes. Profits or losses pass through to the stockholders to be included in their individual income tax returns. Therefore, no provision or liability for federal and state income taxes is required.

The federal income tax returns of the Company for 2016 - 2018 are subject to examination by the federal, state and local taxing jurisdictions, generally for three years after they were filed.

2. FAIR VALUE MEASUREMENTS

The Fair Value Measurements Topic of the FASB Accounting Standards Codification defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by the Fair Value Measurements Topic, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1	Inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets the Company has the ability to access.
Level 2	Inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
Level 3	Inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis using quoted prices in active markets as of December 31, 2019 and 2018:

	Level 1		
	2019	2018	
Assets			
Marketable Securities	\$26,775	\$20,393	

3. FURNITURE AND EQUIPMENT

	2019	2018
Furniture and Fixtures	\$ 43,148	\$ 43,148
Computer Equipment	95,200	80,770
Total	138,348	123,918
Less Accumulated Depreciation	(122,521)	(114,860)
Net Furniture and Equipment	\$ 15,827	\$ 9,058

4. INVESTMENT IN NONMARKETABLE SECURITIES

The Company has invested \$120,000 for a 9.09% equity interest in Municipal Bond Information Services LLC, which is accounted for using the cost method. The investment in Municipal Bond Information Services LLC has not been evaluated for impairment because management did not identify any events or changes in circumstances that might have a significant adverse effect on the fair value of the investment.

The Company has invested \$5,000 for a 16.6% equity interest in Keystone Data Solutions which is accounted for using the cost method. The investment in Keystone Data Solutions has not been evaluated for impairment because management did not identify any events or changes in circumstances that might have a significant adverse effect on the fair value of the investment.

5. LINE OF CREDIT

The Company has a \$200,000 bank line of credit agreement. The credit agreement may be renewed annually at the bank's discretion and is collateralized by the assets of the Company. Interest on borrowings is at a fluctuating rate per annum equal to the bank's prime rate plus 0.5% (6.00% and 5.50% at December 31, 2019 and 2018, respectively).

There were no borrowings under the line of credit agreement at December 31, 2019 or 2018.

The line of credit includes various financial covenants, as defined, that are required to be maintained throughout the term of the agreement. The Company met all of the financial covenants at December 31, 2019.

6. OPERATING LEASE LIABILITIES

Commencing November 1, 2017, the Company began leasing a new office facility with an expiration date of April 30, 2023. The lease allows the Company two renewal options of five years each. Under the lease terms, the Company is responsible for utilities, maintenance, repairs, real estate taxes and cleaning expenses. The Company also pays a portion of the common area maintenance costs. For the years ended December 31, 2019 and 2018, rent expense for all facilities was \$29,187 and \$21,868, respectively.

Supplemental statement of financial condition information related to the lease is as follows:

Operating lease right-of-use assets	\$ 84,383
Current operating lease liabilities	21,166
Noncurrent operating lease liabilities	63,217
Total operating lease liabilities	\$ 84,383

At December 31, 2019, the future minimum lease payments are as follows:

Years Ending			
December 31,	Amount		
2020	\$ 22,986		
2021	26,093		
2022	29,199		
2023	9,940		
Total lease payments	88,218		
Less interest	(3,835)		
Total lease cost	\$ 84,383		

As of December 31, 2019, the Company has no operating leases that have not yet commenced.

7. CAPITAL REQUIREMENTS

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1).

At December 31, 2019 and 2018, the Company's "aggregate indebtedness" was \$56,132 and \$59,302, respectively, and "net capital" was \$570,707 and \$435,068, respectively. Net capital exceeded minimum net capital requirements by \$470,707 and \$335,068 at December 31, 2019 and 2018, respectively.

8. PROFIT SHARING PLAN

The Company maintains a defined contribution 401(k) profit sharing plan covering substantially all full-time employees. The Company contribution is based on 3% of an eligible employee's compensation. Company contributions to the Plan for the years ended December 31, 2019 and 2018, were \$36,280 and \$35,613, respectively.

9. CONCENTRATION OF CREDIT RISK

The Company has not experienced any losses in such accounts.
